I know. That is why I insisted that the letter be sent as a draft to you. The committee will treat it as informational for now. The last thing you need now is another brick in the load.

I know where the concern comes from. I mentioned it to you on the phone today. Procuring all this information will be the responsibility of the ED, which we will have in place soon. As you know I have a day job as well.

Jose:

As we discussed today, I have attached a confidential draft of a letter the Committee on Natural Resources intends to send to you as Chair. Please feel free to share the draft with the other Board members, but otherwise please keep confidential.

As the letter sets forth, the questions attached will form the basis for an oversight hearing by the Committee early in the 115<sup>th</sup> Congress.

Please let me know if this letter will cause any difficulties for the Oversight Board. I do not anticipate that the letter will be sent before January 3, 2017.

Bill
